Shaun and Deb, attached are the talking points for the U&O consultation on the proposed FIP. **The phone consultation is scheduled on Tuesday February 9th at 10 am.** These are mostly the same points we used in the January consultation. There is some new language regarding some recent ozone readings in the basin that has been included, which is highlighted on page 3.

Please let us know who would like to lead the meeting. I suggest we handle it much like the last meeting – Alfreda would kick off the meeting, Shaun or Deb can give the background/general information, Carl and Dee can discuss the details and answer any questions the tribe may have, and then Shaun or Deb would see if the tribe has any additional information for us to consider in our proposed action and next steps.

I'm including Debra in this email to work with Betsy to get the meeting on your calendar and a room location set once we verify who will participate.

Let me know if you have any questions.

Thanks!
D
